

EQUIPMENT RENTAL LOGISTICS

cardibase PROVIDES FULL TURNKEY EQUIPMENT MANAGEMENT SERVICES

EQUIPMENT RENTAL

- ECG
- Holter
- ABPM
- PC, printers

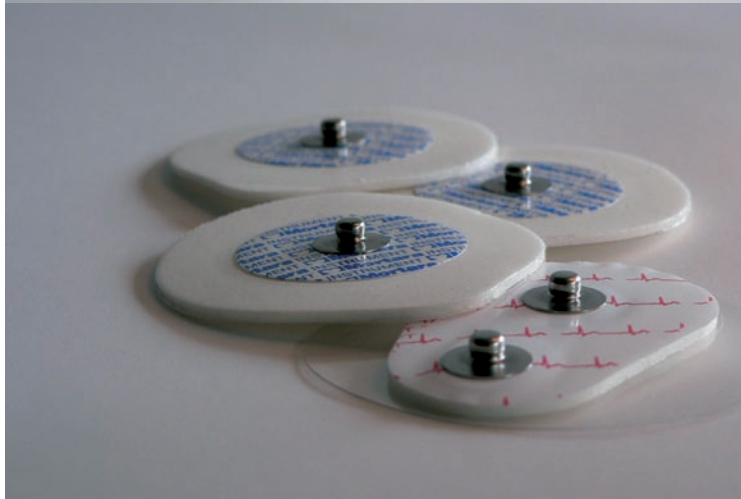

Various models are available to meet all study-specific requirements, from monocentric early phase to multicentric late phase trials.

All devices are pre-programmed with study information such as study ID, site, patient and visit references. Bar code option is available for patient and visit identification.

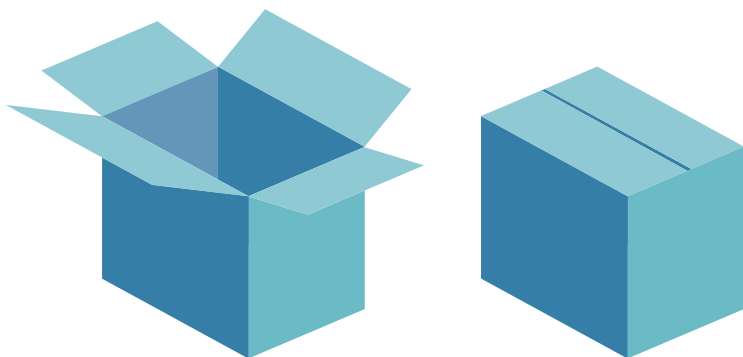

CONSUMABLES

- Electrodes
- Batteries
- ECG paper
- CD - DVD

cardibase TAKES RESPONSIBILITY FOR SUPPLYING CONSUMABLES THROUGHOUT THE STUDY DURATION. SITES CAN ORDER ADDITIONAL SUPPLIES USING A SIMPLE INTERNET-BASED RE-ORDERING PROCEDURE.

LOGISTICS

- Pick and pack
- Shipping
- Customs documentation
- Shipping follow-up

cardibase manages all logistical aspects, from packing to shipping and follow-up of delivery. This includes customs clearance and handling of customs documents (using local agents if necessary) and import taxes. Procedures in place aim at reducing lead time for delivery and relieving the sites from the administrative burdens.

SET UP AND MAINTENANCE

- Worldwide on-site set up
- Site telephone set-up
- Kickoff meetings
- 24/7 tech support (mail, telephone)

cardibase provides 24/7/365 technical support to sites, on a worldwide scale. A team of technicians is available for site training, either on-site, by telephone or as part of the Investigator Meeting. An escalation process provides three levels of action from immediate resolution through to the provision of replacement devices.

ECG IDENTIFICATION WITH BAR CODE SYSTEM

SECURED PATIENT IDENTIFICATION

- Patient receive a un-removable armband with patient ID in a barcode.
- In one single scan, all patient data are captured: patient ID, date of birth, age, gender.

SECURED VISIT IDENTIFICATION

- Patient receives a leaflet with all visits represented by barcodes
- The nurse just needs to scan the patient armband and the visit leaflet and the ECG is done
- Once the ECG has been performed, the nursesigns the leaflet and stick a “done” sticker on the leaflet
